

LES AMIS RECYCLING SERVICE – WHAT WE OFFER

What we collect.

Oil – Collected in 20L containers

- **Waste Catering Oil of vegetable origin uncontaminated by water or other liquids ***

Unfortunately, we are unable to collect waste Palm Oil due to the fact it solidifies in the containers.

**N.B. All waste catering oil containers must be capped, holes sealed and not filled beyond the maximum point of 1" below the lowest opening.*

Where possible all waste catering oil containers should be placed outside of the premises in a covered/dry location, or on the ground floor of the business near to an exit point ready for collection on the allocated day.

Should waste catering oil need to be transported through the clients premises our staff will endeavour to transport the waste catering oil as safely as possible but in the event of any spillages Les Amis will not be held liable for damages incurred.

How often we collect.

Collections can be requested on a Weekly, Fortnightly or Monthly (4 weekly) basis.
The collection day will be dependent on the location of your business.

Oil and Recycling collections take place Monday to Friday

Once we have received a completed and signed service agreement, the business is added to our collections schedule and an email is sent to advise the date of the first collection.

What we charge:

Per Each 1x 20L canister – Containing up to 20L of uncontaminated waste Vegetable oil OR - per each Empty 20L Canister	NIL
---	------------

We made the decision in May 2021 to no longer charge for collection and rely instead that businesses will support Les Amis by allowing them to be the sole collectors of WCO. Les Amis is then able to sell this and use the profit to bolster their annual fundraising requirements.

What we require from our clients:

In order to sign up for this service we request that you fully complete and sign a copy of the Service Agreement along with a copy of an ISCC Self-Declaration document.

That the Client follows the Oil Storage guidelines provided by Les Amis to ensure safe storage and collection of UCO from their business.

Additionally, we request that to the best of their ability the Client ensures that Les Amis is the sole collector of UCO from their business. As a return courtesy for this, Les Amis will also remove any empty oil containers from your business along with the UCO

ISCC:

Les Amis Recycling Service is proud to be a member of the ISCC (International Sustainability & Carbon Certification). ISCC is a globally leading certification system that offers solutions to address sustainability requirements and is contributing to the implementation of environmentally, socially, and economically sustainable production and use of all kinds of biomass in global supply chains.

Les Amis Recycling Service is audited on an annual basis by ISCC in order to retain its certification

When your collection is made, our team will complete a "Waste Catering Oil Collection Note" with the amount collected from you that day. A Copy of this sequentially numbered receipt will be left with you.

Every week our administrator records the amount of recycling collected from each location along with the receipt numbers.

How this Supports Les Amis Residents:

The money generated from the sale of WCO allows us to provide paid job opportunities for those of our more able residents who have been unable to find employment elsewhere.

These residents receive Les Amis employment contracts with all the rights and benefits that these afford. This in turn enables our residents to find socially fulfilling roles and actively assist in the promotion and protection of our local environment.

Should you require any further information regarding our services please send your queries to Recycling@lesamis.org.je

Thank you for considering Les Amis for your recycling needs.
